

QBVT 2019/20

Key changes from last season

Based on player feedback from last season, the following changes have been introduced this summer:

Divisions

Teams will be placed into divisions (ie Premier, Challenger, etc) based on Tour points/National Ranking System. If a team doesn't believe their points will get them into their preferred division they may submit a wildcard application.

Refereeing

At all Majors a Player's Rules Clinic will be run immediately following the last match on Saturday in the Player's Area (unless notified otherwise). This will be run by the appointed Chief Referee and is expected to be approx. 30-45mins, discussing the key rule interpretations.

Attendance at one clinic over the course of the season will be one of the minimum requirements for participating in the Qld Championships.

Qld Championships (Finals)

Qualification criteria:

- a) Each individual in a team must have competed in a minimum of 3 QBVT rounds that season (in the event an ABVT round clashes with a QBVT round, participation in that ABVT round will be considered as a QBVT participation)
- b) Each individual must have attended a Player's Rule Clinic that season

Additional Qld Championship changes:

- No wildcards
- A team will compete in the division that they have played the majority of the season
- Division size cap will be increased to a maximum of 12 teams
- Tournament will be 2 days (only Semis and Finals of Premier division on Sunday)

Junior Entries:

At tournaments where Juniors are played on Sundays only, teams may choose to enter both Premier/Challenger and Juniors. However if they do this they will be ineligible to advance in the Premier/Challenger draw beyond pool play (so as to not impact on the Juniors draw).
