

## Key Rule Differences Between Beach Volleyball & Indoor

(to be applied at Beach Schools Cup)

### In Beach Volleyball:

- Players cannot receive the serve with their fingers in a setting action (flat hands is ok).
- Players cannot 'tip' the ball over the net with their finger tips spread. The fingers must be together and rigid, or use knuckles or a hit.
- If deliberately setting the ball over the net, it must travel perpendicular to the line of the shoulders, forwards or backwards (if the wind blows it over or they were trying to set a team mate that is ok).
- The block counts as a team hit.

### Special notes for Beach Schools Cup:

- At the end of the match, the captain of the winning team must bring the scoresheet to their divisions results tent immediately (this tent may change on day 2).
- Each match is 3 x 8min sets
  - Teams swap ends at the end of each set. In the 3<sup>rd</sup> set teams swap ends every 5 points
  - There is no break of play between sets
  - There are no time outs
  - Each set must have a winner – if the scores are tied then a 'golden point' is played.
- Duty teams to COVID clean balls, net bands, post pads at the end of every match.
