

QLD Beach State Team 2022 Travelling Squad & Shadows

Travelling squads are guaranteed to play in the tournament, while shadow players train with the squad but only play in the tournament if someone from the travelling team is injured.

Selection criteria: Selected players were chosen under three categories.

1) High Performance players were selected based on results at tournaments and skill level displayed at training sessions; 2) Development players were selected based on their current skill level and future potential; 3) Shadow players were selected based on easily being able to fulfil a role in place of a squad member who becomes injured. A percentage of each squad was allocated to development players (pathways) as part of the selection criteria.
